105	My secret: Let someone else cut it for me. Works every time!	configurator
104	I'm probably violating the Be Nice policy, but I have to say that I think you're lying. Everyone's favourite method of cleaning sugar syrups from spoons is to lick the spoon.	Peter Taylor
85	Well this is a nice story. Do you have any sources on this? The middle east has some of the oldest cities in the world, with communal ovens entirely suitable for leavened breads (i.e. they're enclosed, and the bread rests on a surface). I don't believe that it's this.	Marcin
78	I'm just glad to see that someone uses one of these things. It shows that America is already grating, and that there's no need for radical changes to make it grate again.	msouth

Gardening

Score	Text	DisplayName
29	A weed is just a plant where you don't want it to be.	Strawberry
22	Spray Roundup. If it doesn't die, it's patented => Oh, wait...!	Loem Ipsum
19	@Bamboo [wikipedia] (https://en.wikipedia.org/wiki/Canola) disagrees with most of what you said. Also, this whole "GMO" thing is insane. Would you consider apples GMO because we cross specific ones to get the apples we want? Are there any actual risks involved just due to that?	JMac
16	If it's just a mulch pile and not a proper compost pile, then yes, they can go to seed. But, if you're composting properly, your compost pile will reach a temperature that will kill the seeds and prevent germination.	Daniel Bingham

Physics

Score	Text	DisplayName
256	Earth sucks back harder.	Jahan Claes
249	Note: You've been mentioned in the latest [what-if xkcd] (http://what-if.xkcd.com/71/).	Manishearth
189	Apply butter to the back of your phone to counter this effect.	DeepSpace
169	There's actually a cat inside each phone: that's how they work. When you drop the phone, the cat flips to land feet first, which is screen-side down.	CJ Dennis
